

**PUBLIC NOTICE**  
**FAILURE TO SUBMIT A DISINFECTANT**  
**QUARTERLY OPERATING REPORT (DLQOR)**  
**MONITORING, ROUTINE (DBP), MAJOR/CHLORINE**

The City of Wells Water System PWS ID 0370004 has violated the monitoring/reporting requirements set by the Texas Commission on Environmental Quality (TCEQ) in Title 30, Texas Administrative Code (30 TAC), Section 290, Subchapter F. Public water systems are required to properly disinfect water before distribution, maintain acceptable disinfection residuals within the distribution system, and report the results of that monitoring to the TCEQ on a quarterly basis.

Results of regular monitoring are an indicator of whether or not your drinking water is safe from microbial contamination.

This violation occurred in the monitoring periods of **January 2019 – March 2019.**

**We are taking the following actions to address this issue:** Submit reports by the quarterly due date which is the 10<sup>th</sup> day of the month following the end of the quarter. Verify that the only submission is processed correctly and TCEQ received the report.

The report required by TCEQ was processed on the STEERS website on April 10, 2019; an error prevented the report to properly process making the report not submit to TCEQ. The DLQOR passed submission that was made on May 6, 2019.

If you have any questions regarding this violation, you may contact **Carl Pennington (936) 867-4615**
